Type 625B3 Duplex Wall Jacks - Smooth Finish

Standard flush mount jacks are available in smooth-finish single-jack or duplex models, and Decora styles. All feature one-piece construction and install easily in standard electrical boxes. Many are available in both standard plate sizes (69.9mm W x 114.3mm H x 4.8mm D) and Midway plate sizes (9.5mm greater in height and width), in a variety of colors.

These smooth finish units include two jacks, plate and mounting hardware. They can be wired to provide the same dial tone on both jacks (e.g., for phone and answering machine combination) or separate line on each jack. Screw terminals.
