TRAVELPLUG ADAPTOR (2P3W Grounding)

United Kingdom Adaptor

- This plug with three flat pins is for use in the U.K., and parts of Honk Kong and other former British colonies, (pins are equal to UK 1363).
- Versions for use with European sockets # D121E and U.S.A. sockets # D121A are available upon request.
- This adaptor plug must be used only with dual or universal voltage appliances fitted with two or three pin Australian or New Zealand plug.
- Most Australian appliances are made for 220 - 250 volt AC. Many countries, particularly in the America's, operate on 110 volt AC only.
- There is no guarantee that travelplug adaptor fit into every socket in every country of the world.
